

Having trouble seeing your Flowable?

Accolade SRO (super radiopaque), flowable composite. With a radiopacity of 320% of aluminum, (similar to titanium) radiographs were never easier to read! Confirmed in a recent review by a leading clinical reviewer, Accolade SRO is the most radiopaque flowable on the market, yet is value priced. Accolade SRO also offers exceptional strength, aesthetics and the polishability of Starflow & Accolade.
