

CaineTips™

Oral Pain Reliever

CaineTips offer easy to use, topical pain relief. Each individually wrapped disposable swab is pre-filled with a 20% benzocaine solution designed for intraoral applications. CaineTips are available in cherry, peppermint and piña colada flavors.

CaineTips are ideal for:

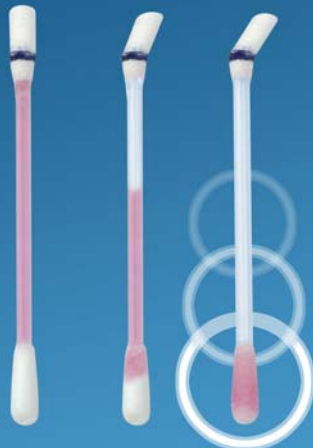

- Pre-injection
- Hygiene procedures, such as periodontal curettage and deep scaling
- Pain relief due to ulcers, wounds and other minor mouth irritations caused by dentures or orthodontic appliances
- Dental procedures, such as impression and radiograph taking

Box includes 100 individually wrapped swabs.

How To Use

1. Hold with solid white tip straight down
2. Bend and snap open upper tip at colored ring
3. Allow medicine to flow down

1. 2. 3.

(Solution colored for illustration purposes)
